Education

Minerva University San Francisco, CA
Bachelor of Science in Computer Science and Economics *Expected June 2028*

Technical Skills

- **Languages:** Python, JavaScript, SQL, HTML/CSS
- **Frameworks & Libraries:** React, Flask, Jinja2, SQLAlchemy (ORM)
- **Tools & Infrastructure:** Git/GitHub, GitHub Actions (CI), Docker, SQLite, REST APIs, unit & integration testing
- **Concepts:** Data structures & algorithms, OOP & design patterns, database schema design & indexing, authentication, Agile/Scrum

Experience

Anteros Bio Boston, USA
Software Engineering Intern *May 2026 – July 2026*

- Built and shipped an end-to-end wellness feature (React front end, Python back end, SQL database), including an internal tool that connects the user wellness database to the web app so each user sees a personalized view of their own data.
- Reviewed teammates' code and worked directly with leadership and engineers at an early-stage biotech startup.

LabXplore Astana, Kazakhstan
Founder and CEO *April 2023 – Present*

- Founded an AI-driven edtech company serving students across Kazakhstan; grew annual revenue to $5,500+.
- Led a 12-person team across 4 sub-teams (technology, marketing, HR, general management).
- Partnered with ERG and UNESCO Kazakhstan, raising average student performance by 30%; ran 5 boot camps and an AI Forum for 150+ students.

Minerva University San Francisco, USA
Admissions Team Intern *September 2025 – Present*

- Advise the admissions team on applying AI, LLMs, and ML tools to improve applicant evaluation.

QazInnovations Astana, Kazakhstan
Quality Assurance Intern *July 2025 – August 2025*

- Reviewed 15 Kazakhstani tech startups for the Ministry of Innovation, shortlisting candidates for Bay Area accelerators.

Nazarbayev University Astana, Kazakhstan
Junior Research Assistant in Carbon Nanoparticle Synthesis *August 2022 – August 2024*

- Synthesized and characterized metal complexes to investigate approaches to inhibiting bacterial growth.

Projects

- **Digital Twin Robot Simulator:** Built a virtual replica of a robot to model and test its behavior in simulation.
- **Google Developer Group:** Product manager for an AI-powered language-learning app.
- **HERising:** Developed a product helping women navigate U.S. legislative processes.

Leadership and Awards

- **National Chemistry Olympiad (Kazakhstan):** 4× gold, 1× silver, 4× bronze; ranked 12th out of 8,500 participants.
- **Millennium Fellowship, Class of 2025:** leadership program for social impact (4% acceptance rate).
- **Brown University Pre-College Program (Summer 2026):** STEM Residential Assistant.
- **Languages:** English, Kazakh, Russian, Spanish, French, Turkish
